Cash transfer programming	<p>Is any part of this project cash transfer programming (including vouchers)? No</p> <p>Conditionality:</p> <p>Restrictions:</p> <p>Estimated percentage of project requirements to be used for cash/vouchers: 0</p>

Needs

There are children , women and men with cerebral palsy and several disabilities live in difficult social and economic conditions and who lost the family as a result of the death of the breadwinner or divorce or abandonment or parental conflict or having more than one person with a disability in the same family so Mabarrat Phalastine Society For Caring works to be the first organization in the field of care and shelter of those people.

Most of these cases have been subjected to violations of their human rights such as beatings, torture, imprisonment and deprivation of food and some subjected to sexual harassment and exploitation of begging because of the loss of the mother ,i.e.; death or divorce or live below the poverty line

According to the WHO and the Washington Group of Disability Statistics show that the rate of cerebral palsy and disabilities in Gaza is 2.8% (And PCBS, April, 2017).

Mabarrat Phalastine Society For Caring, is the only organization in Gaza Strip and West Bank that provide full care and shelter for children, women and men with cerebral palsy and several disabilities who have been subjected to violations of their human rights such as beatings, imprisonment, deprivation of food or even sexual harassment by the father or the mother's husband.

We have some cases that either don't have a birth certificate or identification papers that derive them to go to a governmental or private institution to obtain health care services from natural medicine and medicines or their families have abandoned them because of their disabilities or their poverty.

The cases outside our organization face difficulties to reach the governmental organization to get the same services at a high equality because all of the governmental or even UNRWA places are crowded and not daily and most of these cases have more than one disability. So these cases need to get daily health care services and more than two hours daily.

We want to provide free services of physiotherapy, treatment, occupational and speech therapy for all these cases.

We want to provide cases with cerebral palsy not residing in the Saja Center (the organization hosting house) will benefit from physiotherapy, treatment, occupational and speech therapy at low cost prices (to be a continuous project) to facilitate for the moving from one place to other to get all the services at the same place

We need to provide restoration to make adaptation at our place to facilitate their lives at our center , providing elevator, tools at their path room

We need equipment for Providing physiotherapy, treatment, occupational and speech therapy.

Activities or outputs

Activity 1: Provision of daily physiotherapy, treatment, occupational and speech therapy for people with cerebral palsy and several disabilities of cases

Output 1.1: 38 permanent cases with cerebral palsy residing in the Saja Center (the organization hosting house) will benefit from proper shelter and physiotherapy, treatment, occupational and speech therapy freely and daily.

Output 1.2: around 300 cases with cerebral palsy not residing in the Saja Center (the organization hosting house) will benefit from physiotherapy, treatment, occupational and speech therapy at low cost prices.

Activity 2: Purchase of Physiotherapy equipment

Output 1: the organization will buy the most important and urgent equipment an physiotherapy apparatus that will enable the organization provide professional and complete free-of-charge services.

Activity 3: provision and make adaptation at our center for the organization for children , women and men with cerebral palsy and several disabilities

Output 1: the organization will make the most important adaptation at our center to facilitate cerebral palsy children, women and men residing in the Saja Center (the organization hosting house) their lives. (path rooms and beds and the elevator)
